

# PEAK CONSTRUCTION CORPORATION.... *Still Doing The Right Thing*

A message to our Clients, Business Partners and Friends:

Of paramount importance to PEAK is protecting the health, safety and well-being of our employees, their families, our clients and business partners while we overcome the challenges presented to us all by the COVID-19 crisis. To that end, we join the entire community in making decisions that follow the goals of national and state leadership, WHO and CDC guidelines, and also PEAK's "Do The Right Thing" mission.

PEAK has implemented a policy that allows our team the ability to work from home if and as needed until further notice so that we can safely continue the hard work and service we provide to our clients every day. Although our physical offices are closed to visitors, we are still conducting modified business operations remotely by project management and on-site field operations subject to regulatory restrictions and the minimization of face-to-face meetings or gatherings at the various locations. PEAK will continue to have our hands firmly on the steering wheel for all of our clients and business partners; especially those with whom we have active projects.

Please feel free to continue to contact any one of our PEAK team via phone, e-mail, voicemail, texting, or standard mail to communicate important information or ask any questions.

Like all of you, we will be monitoring the quickly evolving status of COVID-19 in our communities with vigilance, and will modify our on-going decisions accordingly.

*Stay Healthy and Safe!*
